**TACHOMETRY CORPORATION ROUNDS OUT MANAGEMENT TEAM
WITH TWO NEW EXECUTIVES**

WALNUT CREEK, California (May 19, 2005) – Tachometry Corporation, a leading provider of strategic open source business integration, announced today the appointment of two new executives to its management team. Greg Ogle joins the company as Vice President of Operations and David Pikal joins the company as Vice President of Sales and Marketing.

Greg Ogle brings to Tachometry a wealth of network and security operations and management experience. Prior to joining Tachometry, Mr. Ogle managed the network and security development team at Cable & Wireless. His career experience also includes operations and management experience from industry leading companies such as Pacific Bell, Roche Molecular Systems, Digital Island, and Savvis Communications. Mr. Ogle is industry certified as both a CCIE and CISSP and holds a B.S. degree from the University of California at Davis.

David Pikal brings over 10 years high technology management and executive experience in new business development, strategic sourcing and as a general counsel. Prior to joining Tachometry Mr. Pikal was legal counsel for Intersperse and at jCatalog and legal director for new business development at Commerce One. His career also includes managing the IT software strategic sourcing process at Pacific Bell and SBC.

“We are very pleased to add these two exceptional individuals to our management team,” said Tom Evans, President of Tachometry. “Greg is a global industry thought leader in open source security design. He brings to us the proven operational experience, leadership and skills we need for long term success. Dave is a dynamic, well respected subject matter expert in the high technology community. He will help Tachometry achieve its financial and market penetration goals through the business-savvy integration of open source software into the enterprise.”
